Abstract

Praise be to God, Lord of the Worlds, and blessings and peace be upon the Master of the Messengers, his good and pure family, his close companions, and those who follow his call with charity until the Day of Judgment. As for after:

Indeed, God Almighty revealed His great book, whose wonders do not expire, and this great book came a miracle in its style and rhetoric, so he established the argument with it on the Quraysh who were the most eloquent of the Arabs, and the people of Arabia still drew from its knowledge, so the efforts of scholars were combined in order to highlight its contents and learn the secrets of expression So they compiled in that literature and classified the compilations, and there is no doubt that the most honorable science is the science of interpretation. Attachment to the Book of God, as it is the source of light, guidance and mercy for all humankind.

The modern era is still full of working scholars who devoted their lives to interpreting the holy Quran, and employing that in calling to God Almighty, and among those distinguished scholars, the renewing Sheikh, the Imam of the Preachers, Sheikh Muhammad Metwally Al Shaarawi - may God Almighty have mercy on him, who known by the far and near, for the splendor of his style and the sincerity of his words, and the smoothness of his speech, so that his words fell on the heart, a place of dew on the blossom, removing the dust on them, and leaving a luster that shines in the hidden parts of the heart with the light of faith.

Accordingly, my supervisor Dr. Ayad Muzaffar Yunis indicated to me that the title of my thesis for obtaining a master's degree is (Explanation of Proverbs Verses of Al-Shaarawi in Al-Zahrawin -Collection and Study-).

The importance of the topic and the reasons for choosing it:

The importance of the topic lies in two axes:

1. On the one hand of the author and his interpretation, as Shaarawi is considered one of the imams of interpretation commentators in the modern era, and his biography was marked by an eventful path, from the beginning of his religious upbringing in his patriotic village, then his political work of resisting the English occupation, then his work as Minister of Endowments, then he left work and directed him to Interpretation of the Qur'an on radio and television, and the main characteristic of al-Shaarawi's person is that it is acceptable to all rational people, so you will not find anyone who disagrees about it except for the negligible few.
2. In terms of the subject of proverbs: Proverbs have a place among the Arabs, as they are considered a kind of wisdom walking among them, and we still repeat proverbs to this day when a specific incident occurs. Proverbs have taken a significant aspect of our daily life. Its summit, the expression is its goal, and its unspeakable magnificence. It had a great impact on non-Muslims who heard it before Islam, and Sheikh Al-Shaarawi benefited from Qur'anic proverbs in his call to God, which strengthens our talk about its importance.
3. On the other hand Al-Zahrawin, which are Surat Al-Baqarah and Surat Al-Imran, as many hadiths have been mentioned in their virtue, indicating the merit of their reading , as they are the ones that will remain their companions on the Day of Resurrection, as the Prophet told, and it is new to mention that they are among the longest surahs of the Qur'an, and Al-Baqarah is the longest, as well as the diversity of Their subjects.

Because of the aforementioned importance of the topic, this was a

primary reason for choosing the title of this message.

Research Plan:

The research plan was divided as follows:

preliminary chapter:

The first topic: Definition of Al-Zahrawin / Surat Al-Baqarah – Surat Al Imran

The second topic: Shaarawi's personal, scientific and political life

The third topic: Definition of interpretation of Shaarawi.

Chapter One: Proverbs and their place among the Arabs and the Noble Qur'an and divided it as follows:

The first topic: Defining the proverb in language and idiomatically

The second topic: proverbs and their status among the Arabs.

The third topic: proverbs in the Holy Quran.

Chapter Two: the explicit proverbs in Al-Zahrawin in the interpretation of Al-Shaarawi, and divided it as follows:

The first topic: proverbs given in conjunction with a tool with the word (such as)

The second topic: What is mentioned from the proverbs is not associated with the word (such as).

In the two sections I made a proverb for each requirement

Chapter Three: The non-explicit proverbs in Al-Zahrawin and divided it

as follows:

The first topic: latent proverbs

The second topic: Sent Proverbs

And in the two sections I made each proverb such a demand.

Then she appended it with a conclusion to the most important findings that it had reached, and its appendix to a table of proverbs verses studied in the research, according to their inclusion in the message, and on the division of chapters, then mentioned the list of sources that I relied on in the study.
