My work in this thesis was to divide it into three chapters, in which I dealt with the life of the two imams Al-Baydawi and Sinan Al-Din (may God have mercy on them), as well as the verification of the manuscript text

In the introductory chapter, I dealt with: introducing Imam Al-Baydawi and the most important footnotes to his interpretation, as well as the life of Imam Sinan Al-Din, his scientific biography, his works, and his sheikhs and students

In the first chapter, I dealt with: our methodology in the investigation, and a description of the copies of the manuscript, with pictures of the manuscript for the beginning and the end of the manuscript

Then, in the second chapter, I dealt with: the verification of the manuscript, which is Surat Al-An'am from the fiftieth verse to the verse of it, then indexes of the Quranic verses, and the Quranic verses cited, as well as an index of the hadiths of the Prophet (may God bless him and grant him peace), an index of the signs, an index of poetic verses, and then the conclusion Then sources and references

In the name of God, the most gracious, the most merciful  
Praise be to God, and prayers and peace be upon the Messenger of God  
and all his family and companions

My message title

Hashiyat Sinan (d. ٩٨٦ AH) on the Baydawi (d. ٦٨٥ AH) interpretation of  
١١٠ to verse ٥٠ (Surah Al-An'am from verse (study and investigation)

In it, I talked about the lives of the two imams Al-Baydawi (may God have mercy on him) and Imam Sinan al-Din Yusuf (may God have mercy on him) with regard to their scientific and cognitive lives, as well as their sheikhs and students, their scientific works, and their scientific journeys

The reason for choosing the manuscript was to see the Islamic heritage, from the scientific heritage of our Islamic history, as well as to see the efforts of our eminent scholars in all sciences and arts, as well as to see the science of verifying manuscripts, and how to verify texts and comment on them

So this manuscript was chosen, which is the footnote of Sinan al-Din Yusuf (may God have mercy on him) over the interpretation of al-Baydawi (may God have mercy on him). It is also an extension of Al-Kashshaf's interpretation of Al-Zamakhshari, who was also distinguished by language, rhetoric, and others

There must be difficulties in writing the letter, including the lack of sources that dealt with the life of Imam Sinan al-Din (may God have mercy on him), both personal and scholarly, as well as the lack of clarity in some versions in contrast with the original version
